

# Diners Club® Corporate Cards

With Diners Club®, your organization will work faster, smarter and more efficiently than ever. Our innovative payables and expense management solutions, reporting tools and 24/7 support, empower you and your employees to get the job done anywhere, anytime.

Each Diners Club Card Program works independently or as part of a powerful combination:

## Corporate Card Program

The Corporate Card Program is a card-based program that gives you the tools to help capture, track and analyze business expenses associated with travel and entertainment – allowing you to increase productivity and maximize savings across your organization.

## Travel Account Program

The Travel Account Program helps you control air, rail, hotel and common carrier expenses and improve cash flow. Benefit from detailed travel information to help lower vendor costs. This cardless program reduces and often eliminates unnecessary paperwork.

## Event Card Program

The Event Card Program helps you effectively manage costs for meetings and events by consolidating your organization's spending onto a single payment vehicle, simplifying your ability to report, reconcile and analyze these types of expenditures.

## MultiNational Corporate Card† (MNCC)

The MultiNational Corporate Card program is an advanced commercial payment solution specially designed to meet the needs of organizations with offices around the world. It allows you to implement and manage a consistent, fully integrated travel and entertainment program and extend your organization's ability to maximize savings and efficiencies.

## Club Rewards® Program

Build travel policy compliance by rewarding your travelers.

- Cardmembers earn points on eligible purchases (\$1 charged = 1 Club Rewards point)
- Points can be redeemed for a wide range of options, including flights on virtually any airline in the world, frequent flyer miles, brand name merchandise and financial rewards.

This program is optional and requires enrollment. Fees apply. Please speak to us for more details.

† Includes many of the same benefits as the Corporate Card Program, but specific coverages may vary on a country-by-country basis.

## Information Reporting & Risk Management

For greater visibility and control of your business, you need timely, accurate information reporting for minimal risk exposure. BMO's comprehensive reporting and risk management solutions can help you manage your business while saving you time and money.

With a variety of online program management tools such as Corporate Account Manager, Global Vision®, T&E Reconciler® and more, Diners Club Corporate Card leverages a number of easy-to-use online tools for generating detailed and customized reports.

You will have peace of mind knowing all of your travel and entertainment spending data is securely stored in a single centralized data warehouse and is accessible anytime, from anywhere.
